

# Eddie Vedder, The Dark

I didn't mean to up and scare ya  
I came here to open up  
I've been able to hear you  
When you speak to yourself

I've been seeing you're good  
I've been hearing you're bad  
I've been feeling so guilty  
You've been feeling so sad

These nights with the sky still full of stars  
Oh, I'm gonna find you in the dark

I'll find you in the dark  
I'll find you in the dark  
Let me lift, lift you out of the dark

Walking the moon as if on a leash  
Follow my shadow in the sand  
Blue light beaming down on me  
And the footprints you have left

Your silence covers me  
Like heavy water  
Fathoms underneath the sea  
Midnight, not a cloud in the sky  
I should be lost in your eyes

These nights with the sky still full of stars  
Oh, I'm gonna find you in the dark

I'll find you in the dark  
I'll find you in the dark, yeah  
I'll find you in the dark  
I'll find you in the dark

Let me lift

We all could  
We all could use some redemption  
We all fail  
Fail in the face of perfection

Surrender to apologies  
Oh-oh, but you gotta bury me?  
Why ya gotta bury me?

Come find me in the dark  
Come find me in the dark, yeah

Come find me in the dark  
Come find me in the dark

Is there a thread of connection?  
Is there a deeper confession?  
Let's find a way into the clear

I'll find you in the dark  
Come find me in the dark, yeah

Yeah, yeah

I'll find you in the dark  
Come find me in the dark

Let us lift
