

# Eddy Arnold, Let's Make Memories Tonight (RCA)

(Johnny Nash)

Let's make memories tonight for this is the night to remember  
Let's make moments to remember the day  
Let's don't play around tonight it's not time to stop the teasing  
I must admit it was pleasing and make me want to stay.

A thousand roman candles they explode each time we touch  
No can't you know my darling what I do believe so much  
And make let's make memories tonight  
And no flame will last for the lifetime holdin' you tight

For the lifetime and everything's all right  
Let's make memories let's make memories tonight  
Let's make memories let's make memories tonight  
(Let's make memories tender memories tonight.)...
