

# Eddy Arnold, Long Life Lots Of Happiness

Drive-in shows covered with snow but we never felt the cold  
We bought us a blanket we always meant to thank it for hugging us so close  
In kittle round clothes at downtown in windows we posed  
I cling to your warmth while you're tugged on my arm  
Our eyes passing funny little notes

Long life lots of happiness good wife lots of pretty kids  
We gotta be one one happy time

It was a bitter wine our first sip of time then we drank till the sweet stuff ran dry  
Through sunshine and roses the winter's red noses the days softly tiptoeing by  
Now they're the good ol' days as they come back to play on my mind  
The laughter the pain how we fought off the rain  
We lived by those silly old lines

Long life lot's of happiness...  
Long life lot's of happiness...
