

# Eddy Arnold, Love Finds A Way

Snow can snow storms can blow but a boy will find his Miss  
As long as there's a girl left on this earth with pretty little lips to kiss

Love finds a way it's been that way ever since time began  
Ever since that beautiful beautiful day when the Lord made a woman and a man  
(Ever since that way ever since the day when the Lord made a woman and a man)

Girl's on the island boy's on the shore the chances might look slim  
You can bet your life before the day is through somebody learn to swim

Love finds a way...

They've tried to part us little girl to keep you from my side  
But the fire of love will see us through I'll take you for my bride

Love finds a way...  
When the Lord made a woman and a man  
When the Lord made a woman and a man  
Love finds a way
