

# Eden's Bridge, All In A Life

I know youre listening  
Here in the silence  
Though youre not looking at me now  
A thousand meanings  
Here in the silence  
I hat it when we are so low  
And Im always happy when its over  
Cause Ive seen the summer sparkle  
Burn like the afterglow in your hand  
Ive seen the rain fall softly  
Down on the sand  
I wait for winter whisper  
To see the freshness in delight  
Here in my heart I know its all in a life  
All in a life

But its so special  
When the silence  
Is just a word between us two  
The smiles will carry  
The bad days over  
And that is why Im here with you  
Then Im so happy to be with you

And Ive watched the storm clouds gather  
Ive felt the coldness of the night  
Ive wondered if its really over  
But then the sunrise gathers  
Upon the clouds, I know were fine  
And that we should be together  
All in a life, all in a life
