

Eden's Crush, All Life (Toda Vida English)

Verse1:

Whichever times I encountered
In search of love
That love that I dreamed
And nobody alleviated me
That where the heart leads
There a reason nothing to do with
Any now that my hour has come
And you have filled me with happiness

Chorus:

I will love you all my life
I will always be by your side
With you nothing is missing
You are my fortune

Verse 2:

My attraction was natural
I could not control
Having you in front of my eyes
How was I to imagine you would still my heart with a kiss
And now my life is another story
I love you like no other
You are my truth

Chorus:

I will love you all my life
I will always be by your side
With you nothing is missing
You are my fortune

I will love you all my life
I will always be by your side
With you in the good ones and the bad ones
For all my life

Verse 3:

Many moons will pass
And the desire to love each other will never die

Chorus:

I will love you all my life
I will always be by your side
With you nothing is missing
You are my fortune

I will love you all my life
I will always be by your side
With you in the good ones and the bad ones
For all my life
