

Eden's Crush, Get Over Yourself (Goodbye)

Uh Huh
Yea-ey-yea-ey-yeah
Get Over
Get Over

Listen
Yeah I was right there
Like a little wife
I was everything that you need
Always in line
I was living you, loving you
Filling your desires
But that was then this is now
Look me in the eye and

Ooooooh oh oo oh
If love could choose sides
Ooooooh oh oo oh
It's taking mine so

Chorus:
Get over yourself goodbye (goodbye)
It must be hard to be you yeah
Livin' in your life
I was always the one to cry (to cry)
Now everything, everything,
Everything is all right

Get over yourself, know why (know why)
'cause without you see I do anything I like
Sometimes I stay out all night (all night)
And everything, everything,
Everything is all right

This just can't be it, I kept telling myself
That every magazine say was me was on the shelf
I was giving out giving in giving way my dreams
That's why you (put it in) put me down
Now I found my self esteem

Ooooooh oh oo oh (ohhh)
Won't get me back (won't get me back, no)
Ooooooh oh oo oh (no, no)
Think I overreact

Chorus:
Get over yourself goodbye (goodbye)
It must be hard to be you yeah
Livin' in your life
I was always the one to cry (to cry)

Now everything, everything,
Everything is all right

Get over yourself; know why (know why)
'cause without you see I do anything I like
Sometimes I stay out all night (all night)
And everything, everything,
Everything is all right

Bridge
So now you wanna talk
Say lets do it just once more for luck

Lack of times make up
Better yet, just forget, better get over yourself
So stay in touch
When you learn a few things about love (tell me baby)
Until then we go
Better yet, better get, better get over yourself (Ohh)

Over yourself, goodbye (Over yourself, goodbye)
Over yourself, over yourself,
Get over yourself, goodbye (Over yourself, goodbye)
Over yourself, oh-over yourself,
Get over yourself, goodbye (Over yourself, goodbye)
Without you see I do anything I like,
Sometimes I stay out all night,
Everything, everything,
Everything is all right

Chorus
Get over yourself goodbye (goodbye)
It must be hard to be you yeah
Livin' in your life
I was always the one to cry (to cry)
Now everything, everything,
Everything is all right

Get over yourself; know why (know why)
'cause without you see I do anything I like
Sometimes I stay out all night (all night)
And everything, everything,
Everything is all right
(Repeat x2)

Get over yourself, goodbye (everything is all right)
Everything is all right (Over yourself)
Get over yourself, goodbye (everything is all right)
Everything is all right (Over yourself)
Get over yourself, goodbye
