

Eden's Crush, You Know You Wanna

(Talking) Im addicted to you*

Promise me
This night wont be the last time
Baby wrap ur arms around me
An let me hold u tight
In the middle of the evening
Ill make you feel alright

Is it ur eyes?
Is it ur kiss?
Is it the affection that I miss?
I never ever want 2 say goodbye
And oh if I knew
Everything would end soon
I'd still choose to be w/ u

Anywhere but here
Something never meant to be
Everything you meant to me
Bitch you grown, that ain't baby fat

If I cant do well homie it cant be done
Im gonna let the champagne bottle pop
Im gonna take it to the top for sho
Im gonna make it hot BABY

I know what I want
And thats more than you can say

(Talking)
"look u made me go and hurt my dick hand!"
