

# Edenbridge, The Most Beautiful Place

There the journey will end  
The place where my soul can strand  
You are what I call cockaign  
And you take away all my pain  
The place where all dreams ally  
Gimme wings and I fly

(chorus)  
You're always inside  
Whereever I roam  
In my heart  
This place I call home  
You're the shine, youre the brace  
You are a beautiful place  
You're with me whereever I go

A world where all's in decay  
The dream when I'm miles away  
Entrancing you're under my eyes  
The floatlight that lightens my skies  
Homeward bound I will return  
I can feel my heart burn

(chorus)
