

Edgewater, Digging For Sounds

We started digging for sounds
They said we were too loud
So calm down, or just go away
'Cause we've got something to say

We're not robots
More like astronauts
We're not programmed
We make choices

Nod your head
Raise your hands, if you can
If you can feel me
Dig in and get into the feeling
We're digging for life
We're digging for love
Dig in and get into the feeling of ...

Digging for sounds that'll take us
To a place we've never known
And if you're not down, just you stay calm
'Cause you've got your radio

We started feeling the wave
We played all of the games
Don't need the fortune and fame
'Cause we've got something to say

We're not robots

More like astronauts
We're not programmed
We make choices

Nod your head
Raise your hands, if you can
If you can feel me
Dig in and get into the feeling of ...

Digging for sounds that'll take us
To a place we've never known
And if you're not down, just you stay calm
'Cause you've got your radio

Digging for sounds that'll shape us
To a name we call our own
If you're not down, just you stay calm
'Cause you've got your radio

What's controlling us?
Who's controlling us?
We're controlling us
Only us

Digging for sounds that'll shape us
To a name we call our own
If you're not down, just you stay calm
'Cause you've got your radio
