

Edgewater, Engage

So proud, well take a bow
It's coming 'round and I think I'll give you a taste
You won't forget the day we met and what was said

So now the time has come to watch your back, don't stand alone
And I'll say just one last thing, don't turn away
Why can't you listen to me?
You'll find it out, the price is out on your head
And I'm willing to pay
Your time ran out and the lights go down in red

Afraid to take a stand, you had one last chance to make amends
Now you'll pay for your mistakes, it's your last day
Why can't you listen to me?

You'll find it out, the price is out on your head
And I'm willing to pay
Your time ran out and the lights go down in red
Listen to me
You'll find it out, the price is out on your head
And I'm willing to pay
Your time ran out and the lights go down and now you'll see

I don't give a f**k
No, I don't give a f**k

You can run and hide but I will find you
Listen to me, lesson to you
Listen to me, lesson to you
Listen to me break
Why can't you listen to me?

You'll find it out, the price is out on your head
And I'm willing to pay
Your time ran out and the lights go down in red
Listen to me
You'll find it out, the price is out on your head
And I'm willing to pay
Your time ran out and the lights go down and now you'll see

So proud, well take a bow
It's coming round, you'll find out
Listen to me, lesson to you
Listen to me, lesson to you
LISTEN TO ME, LESSON TO YOU
