

Edguy, Scarlet Rose

The moment when you held me tight
Won't come back any more
And at the end of that night
You slammed the door

My dream it died away
Just when I saw red
And nothing but a memory
Is left inside my head

Nothing is forever in life
But a memory - believe it's true
And when I gaze in the rain
I'm cryin just for you

Chorus:
The scarlet rose has died
Lost inside the night
Left in my mind like a dream and full of pride
The scarlet rose has died

The one and only way to catch the
Beauty of a dawn
Is to take a picture
Of the growin sun

I got that experience
No one could steel away
One moment of your life is mine
I remember day by day

Nothing is forever in life
But a memory believe it's true.
And when I gaze in the rain
I'm cryin just for you.

Chorus x 4:
The scarlet rose has died
Lost inside the night
Left in my mind like a dream and full of pride
The scarlet rose has died.
