

Editors, Educate

I don't wanna be wasting your time
Over and over
This is how we hide from modern life
Under the covers
You saved my soul with a drive
Don't you remember
What it was when it was what it was
It was only an ember

Cut a corner just to kickstart my mind
Shock me to feel it
This is how we make sense of our time
Waste every minute
Don't get angled in the mire
Don't you remember
What we were when we ran from the fire?
We were rolling forever

Nothing ends in the din
Second guessing to fit in
Nothing ends in the din
Second guessing to fit in

I don't know what this is
No, I don't know what this is
You're counting syllables
The picture teaches us how to live
Don't educate
Don't educate
Don't educate

I don't know what this is
No, I don't know what this is
You taste of cinnamon
Your history is a map how to live
Don't educate
Don't educate
Don't educate

When you don't occupy my soul
Is love never ending!
What it was just to be someone you know
Love is pretending
Don't get caught out by the times
Don't you remember
Who we were when the words could only rhyme
You kiss and you whisper

Nothing ends in the din
Second guessing to fit in
Nothing ends in the din
Second guessing to fit in

I don't know what this is
No, I don't know what this is
You're counting syllables
The picture teaches us how to live
Don't educate
Don't educate
Don't educate

I don't know what this is
No, I don't know what this is
You taste of cinnamon

Your history is a map how to live
Don't educate
Don't educate
Don't educate

All we had was a perfect idea
A beautiful plan
To waste our endeavour
All we had was a perfect idea
A beautiful plan
To waste our endeavour
All we had was a perfect idea
A beautiful plan
To waste our endeavour
All we had was a perfect idea
A beautiful plan
To waste our endeavour
