

# Edna's Goldfish, Get To You

Feel like jumping off a building  
I feel like punching holes in the ceiling  
Cause I can't put my mind away  
With this hand that I'm holding  
While the story's getting old and

You don't need me  
To make up your mind  
You don't need me  
Figure it out on your own this time  
Don't let it get to you  
Don't let it get to you  
Don't let it get to you

Your life has been so uneventful  
My life has been so suspenseful  
Cause I can't put my mind away  
With this hand that I'm holding  
While the story's getting old and

You don't need me  
To make up your mind  
You don't need me  
Figure it out on your own this time  
Don't let it get to you  
Don't let it get to you  
Don't let it get to you

Well I know we can find a better way  
For you and me things will always be the same

You don't need me  
To make up your mind  
You don't need me  
Figure it out on your own this time

You don't need me  
To make up your mind  
You don't need me  
Figure it out on your own this time  
Don't let it get to you  
Don't let it get to you  
Don't let it get to you  
Don't let it get to you  
Don't let it get to you  
Don't let it get to you
