

Edward, I'm God Of A Machine

Everywhere I look
I tell you what to do
I am your master
soon I'll be through with you
I Am your God
You're a machine
I build you up top
fulfill my dream
I Am a God It's clear of a machine
I can plug you in
I will turn you on
make you reproduce
when I am gone
I run the program
control all your views
you don't even know
that you're being used
