

# Edyta Górniak, Glow On

Everytime I look at you  
All this dreams become so true  
What was then gone  
Let it start for new  
Are you ready for me  
I've be ready to love, to love

I know you're thinking about loving me  
Give me hope baby  
Coz, you love it  
What we've wasn't good enough  
I need a feeling of lighten up are we singing in  
Oh, baby  
Don't let me go now□□  
Just let it go now  
I need you right now  
Just come to me baby

We fall in love  
To live again  
We hope that something we've just starting  
We drifted love  
When we hold it close ... to love  
Far away from the darkness  
We fall in love  
To live again  
We hope that something we've just starting  
We drifted love  
When we hold it close ... to love  
Far away from the darkness  
Just let t glow on

Just let t go now  
Don't give it up  
Just let t go now

Just let t go now  
Yaeh, yeah  
Pleas  
Just let t go  
Just let t go

Something that just starting  
Live that love
