

# Edyta Górniak, Miles & Miles Away

The nights get colder, around this time of year  
Nothing helps to keep me warm  
The days get older, oh so slowly gone  
When you're far away from home

Nothing can stop the night from falling  
Nothing can stop me crying out your name

When I'm miles and miles away from you  
And I don't know what I'm gonna do  
When I'm miles and miles away from you  
I need your arms around me

I know you're sleeping  
I know it's only time, till I am back with you again  
And if you're dreaming, I hope your dreams are mine  
And it will always be the same

Nothing can stop the night from coming  
Nothing can stop me crying out your name

When I'm miles and miles away from you  
And I don't know what I'm gonna do  
When I'm miles and miles away from you  
I need your arms around me

I can feel you lying beside me, as I reach across the bed  
I can hear you say, I can hear you say...  
I love you  
But as I open up my eyes, with your words still in my head  
I know that I'm, I know that I'm alone

When I'm miles and miles away from you  
And I don't know what I'm gonna do  
When I'm miles and miles away from you  
I need your arms around me
