

Eek A Mouse, I Will Never Leave My Love

I will never leave, I will never leave
Never leave you my love because i love you so

Many things they said about you I do not believe

So they try to scandle you and I know it's not true
You don't let you fell the shame
I don't feel no way
Remember those who have use you I say

They really try to get in your way

woy woy woy woy woy

Stop your crying my love you know I nedd you now
You're not dying my love you know I want you know

So no matter what they say
And no matter what they do

You know I really love you so
And no will never part

I will never leave, I will never leave
Never leave you my love because i want you know

Many things they said about you I do not believe

So they try to scandle you and I know it's not true
You don't let you fell the shame
I don't feel no way
Remember those who have use you I say

They really try to get in your way
