

# eels, Last Time We Spoke

When you called  
Your voice was so grave  
I knew it would be  
The last time we spoke

You said something  
That i could not bear  
To hear with my own ears  
The last time we spoke

And it's a hard time  
Trying to get through  
All the days that drag on  
Thinking about you

Nothing hurts  
Like someone who knows  
Everything about you  
Leaving you behind

And it's a hard time  
Trying to get through  
All the days that drag on  
Thinking about you

When you called  
You might as well have killed me  
And that was the last time  
The last time we spoke
