

Effigy, Bluffing

In a moment, something will happen
It will last forever and we won't know what it is
What is it, am I bluffing
See my face is the place where the hate goes
I hate my friends
I tie you up and leave, well you wanted something new
Something no one else would do for you
Is it real, am I bluffing
See my face is the place where the hate goes
I hate my friends
I hate my friends
