

Effigy, I Give In

I crucify myself inside my head, like you said
You want to prove that I'm dead, just a shell, a living hell

I give in

I give in

I give in

I give in

I justify this sin, control it from within, so you can't win

You pull me down with no sound, a whirlpool all around, never to be found

I give in

I give in

I give in

I give in

I don't know what I'm waiting for, to score, just a little?

I don't know what I'm waiting for, to score, just a little?

I don't know what I'm waiting for, to score, just a little?

I don't know what I'm waiting for, to score, just a little girl.
