

# Eidolon, Comanation

One united pulse that dangles - lifeless by a chain  
Suspended by his grip - non-moral - he is pain  
Sucking away the lives - to make his power more  
Sick vengeance he is seeking - to last even the score

Reaching for the culmination  
From within the coma nation

Past aeons filled with anguish - the suffering - insane  
Skinned alive - the innocent - the boiling point engaged  
Lifeless souls then gathered - to make their power one  
Morphesizing into darkness - true vengeance has begun

Reaching for the culmination  
From within the coma nation

We won't abandon hate  
We seek the twisted fate  
Temptation far to great  
Their death is what we crave

Solo

Floated state or meridian - skin begins to tear  
Decaying bodies pale - too sickening to bear  
Day of vengeance has arrived - euphoria obtained  
Triumph through out lifeless souls - my power is ordained

Reaching for the culmination  
From within the coma nation
