

# Eidolon, Pain

Music: S. Drover

Lyrics: S. Drover

We " are one in the same  
My heart grows fonder every day  
Now " you don't recall my name  
Forever " never be the same

Please stay away  
I spill the blood of pain  
I breathe your soul  
How hard I try to refrain

Eternity " my mental scars surely remain  
Forevermore " I will now show you my pain

I " try to make amends  
Until you spit on me again

Please stay away  
I spill the blood of pain  
I breathe your soul  
How hard I try to refrain

Solo " Shawn, Slav, Glen

Please stay away  
I spill the blood of pain  
I breathe your soul  
How hard I try to refrain

Eternity " my mental scars surely remain  
Forevermore " I will now show you my pain

Solo " Glen
