

# Eiffel 65, Back In Time

&lt;lyrics&gt;

Back in time  
In my time all the time  
Up and down  
Every time I'm flying  
Back in time  
In my time One more time  
Always up and down  
All the time I'm flying High  
Back in time  
In my time all the time  
Up and down  
Every time I'm flying  
Back in time  
In my time One more time  
Always up and down  
All the time I'm flying High

Here in the open space, where nothing  
Seems to move at all  
I can run this race back in time  
From the world I can hide

Here in the open space where something  
Seems to float and not fall  
I can feel the madness slow down  
I'm the master of time

Back in time  
In my time all the time  
Up and down  
Every time I'm flying  
Back in time  
In my time One more time  
Always up and down  
All the time I'm flying High  
Back in time  
In my time all the time  
Up and down  
Every time I'm flying  
Back in time  
In my time One more time  
Always up and down  
All the time I'm flying High

Here in the open space, where nothing  
Seems to move at all  
I can run this race back in time  
From the world I can hide

Here in the open space where something  
Seems to float and not fall  
I can feel the madness slow down  
I'm the master of time

Back in time  
In my time all the time  
Up and down  
Every time I'm flying  
Back in time  
In my time One more time  
Always up and down  
All the time I'm flying High  
Back in time

In my time all the time  
Up and down  
Every time I'm flying  
Back in time  
In my time One more time  
Always up and down  
All the time I'm flying High
