Eiffel 65, Back In Time (Radio Edit)

(Chorus)
Back in time
Always up and down everytime i'm flying back in time
In my time all the time.
Up and down
Every time I'm flying.
Back in time,
In my time One more time.
Always up and down.
All the time I'm flying High. (x2)

Here in the open space, where nothing
seems to move at all.
I can run this race back in time,
from the world I can hide.

Here in the open space where something,
seems to float and not fall.
I can feel the madness slow down,
I'm the master of time

(Chorus):
Back in time,
In my time all the time.
Up and down
Every time I'm flying.
Back in time,
In my time One more time.
Always up and down.
All the time I'm flying High.
Back in time,
In my time all the time.
Up and down
Every time I'm flying.

Back in time,
In my time One more time.
Always up and down.
All the time I'm flying High.

Here in the open space where something,
seems to float and not fall.
I can feel the madness slow down,
I'm the master of time

(Chorus):
Back in time,
In my time all the time.
Up and down
Every time I'm flying.
Back in time,
In my time One more time.
Always up and down.
All the time I'm flying High.
Back in time,
In my time all the time.
Up and down
Every time I'm flying.

Back in time,
In my time One more time.
Always up and down.
All the time I'm flying High.
