

# Eight Fingers Down, 15 Minutes

What the fuck have I become?  
Where the fuck do I belong  
I don't think I fit in (But I don't care)  
I tried but didn't succeed  
I died but didn't bleed  
Where do I got from here  
Question the answers they don't make sense  
I can't afford to pay the rent  
I'm going nowhere but I don't care  
Fifteen minutes of fame  
Don't mean much, but life is tough  
Been there before now show me that door  
Pseudo reality  
Without tranquility  
I have been there before  
Working with no vacation  
Loving with obligation  
Is that the meaning of life?  
I try and try and try to see  
What these things all mean to me  
I have issues with life and issues with g-d  
I read the book and it seemed all wrong
