

# Eight Fingers Down, Stranded In Reality

Everyone make a mistake  
Apologies always come late  
Cause I'm stranded in reality  
I want to die (not today) in reality  
Cause I needed help, wanted help  
Did you say you'd give me help  
Needed help, wanted help, won't you help me  
Praying as the bloods dripping down  
Trying to repair broken crowns  
I want to live
