

# Eighteen Visions, A Long Way Home

Can someone save me from this hell I've made?  
Can someone save me before it's too...  
Late nights have driven me insane  
From you, I feel so far away  
I'm all alone now in this hell I've made  
I'm all alone now  
I think it's too...late nights have driven me insane  
From you I feel so far away  
Can you tear me away from this I said...  
can you tear me away  
Can someone save me from this hell I've made  
Can someone save me before it's too...  
late nights have driven me insane  
From you I feel so far away
