## Eighteen Visions, A Long Way Home

Can someone save me from this hell I've made?
Can someone save me before it's too...
Late nights have driven me insane
From you, I feel so far away
I'm all alone now in this hell I've made
I'm all alone now
I think it's too...late nights have driven me insane
From you I feel so far away
Can you tear me away from this I said...
can you tear me away
Can someone save me from this hell I've made
Can someone save me before it's too...
late nights have driven me insane
From you I feel so far away
