

Eighteen Visions, Bleed By Yourself

I haven't met you lately
I know it's been so long
I haven't seen you lately
I know what you've done wrong
Think time has made you crazy
Your mind is oh so gone
Think time has more than raised me
Don't need you anymore
Shooting your inspiration
Bullets don't feel so good
Turning to desperation
I always knew you would
Think time has made you crazy
Your mind is oh so gone
Think time has more than raised me
Don't need you anymore
This is where you stand
This is where you pray
This is where you sit and this is where you lay
I left you there to bleed by yourself
You left me here to die alone
Think time has made you crazy
Your mind is oh so gone
Think time has more than raised me
Don't need you anymore
