Eighteen Visions, Last Night

I remember all the time you spent with me It broke my heart to see you go And I remember those times that you were there for me And I remember the drive home (I remember the drive home)

Last night I forgot to tell you Last night you had to die alone

I remember always looking up to you But you were never looking down (You were never looking down) And I remember that warm September afternoon And I remember all the sounds (And I remember all the sounds)

Last night I forgot to tell you Last night you had to die alone

Last night I forgot to tell you Last night I didn't get to say goodbye

You meant the world to me And I know we will be together in the end forever baby (In the end forever baby) I'm feeling so alone now, more then I've ever been I just want to feel you in arms again

Last night I forgot to tell you Last night you had to die alone

Last night I forgot to tell you Last night I didn't get to say goodbye
