

# EKHTO, Cosy Mess

I tumble while dealing with the problem  
My estate with you - panoramic views  
I try to reduce international huge impact  
Present smaller crowds - my neighborhood

I want to see an ocean  
Where lies are going with the time  
I interact with public space emotion  
I'm going to settle down

This cosy mess, I will take it  
Then I'm dead, I am dead
