

# Ektomorf, Brothersong

I don't care  
What the trend is, what is in fashion  
But I listen to music and watch you

Feel the power what I give you  
Let it be your blood and scream it with me  
Listen this is the brother song

The brother song  
The brother song  
The brother song

Step among us  
So you belong to us and if you hear this song  
You won't be alone, where ever you are

We accept you, it doesn't matter who you are  
There are no borders and no fucking rules  
Listen this is the brother song

The brother song  
The brother song  
The brother song

We break up the barbed wire  
The guitar the drums destroy together  
We smash the filth to pieces

Enough of them, patience is gone  
Listen and scream  
Here we, are playing really loud  
We want so see you are with us too  
We defeat everything, no obstacles  
Just pure strength this is the only rule

Listen  
And scream  
Listen this is the brother song

The brother song  
The brother song  
The brother song  
Listen this is the brother song
