

# Ektomorf, Instinct

I am who I am  
Walk on my own way  
Follow my instinct

I am the target of your jealousy  
I am the one who you just wanna be  
Look, look in the mirror, what you see  
You full of shit why can't you see

I am the target of your anger  
I am the one who you call danger  
I am the one who believe in destiny  
You motherfucker I am your enemy  
Your worse enemy

I am who I am  
Walk on my own way  
Follow my instinct

I am the target of your jealousy  
I am the one who you just wanna be  
I am the one who believe in destiny  
You motherfucker I am your enemy

I am who I am  
Walk on my own way  
Follow my instinct

You just wanna be  
You're full of shit  
You just wanna be  
You're fucking envy

You just wanna be
