Ektomorf, Red I

I grew up in the world that
Does not give a fuck about me

I grew up in the full of
Prejudice and ignorance

Hate all around based on the
Color of the human skin

Open your eyes cut your skin
And you're gonna see

Red I
Red I
Red I
Red I

I grew up in the world that
Does not give a fuck about
Peace

I grew up in the world that is
Evil and self-destructive

This world only wanna see
Colors black and white

This world don't wanna look
inside only outside

Red I
Red I
Red I
Red I

One world see the freedom
Flame

No hate - no prejudice
We're all the same
