Couldn't find a reason why I couldn't leave you should've walked away from the start And I wish th

Cause I was tryna save us hoping it'd get better seeing that we made it this far. But I know what I k  
But we keep running around in circles doing the same thing  
And I know you'll never change but I'll keep coming back to you, back to you

Look what it is

Deja vu

If it ain't me, tell me who?

Day or night, you can come through. And I'm just waiting on you, make your move. It ain't right but

Let's run it back deja vu

You say I'm toxic? Baby you too

And don't get mad at me I get it from you

Oh how I love to see you leave me dry

Cause that's the only thing you know how to do right (right?)

I'm not expecting much from you I'm good on my own

But it's only you that gets me in the zone

But we keep running around in circles doing the same thing

And I know you'll never change but I'll keep coming back to you, back to you

Look what it is

Deja vu

If it ain't me, tell me who?

Day or night, you can come through. And I'm just waiting on you, make your move. It ain't right but
