

# Elan, The Road

Before you go  
There are some things I should tell you  
And prepare you for what you might not have seen  
In the dreams you've had about this crazy world  
We're living in

Stay out of trouble  
Keep your eyes wide open  
For a different scene  
And who you might meet  
Love the road you're traveling on  
And believe not  
That everything is clear when it's all gone

[Chorus]  
And if there's one thing  
You're sure you want to leave behind  
Let it not be there memory  
Of you and me

And if there's one thing  
You're sure about  
Let it be the time  
You spent with me

Take it slow  
Something might come and lift you from your feet  
And if you think you know  
Then It's time to let life show you  
A little bit more

[Chorus]  
And if there's one thing  
You're sure you want to leave behind  
Let it not be there memory  
Of you and me

And if there's one thing  
You're sure about  
Let it be the time  
You spent with me

Was this the road you ere looking for  
And have you finally seen it all  
The crowded streets  
The looser streaks  
And an empty soul  
With no show  
And nothing to live for?

[Chorus]  
And if there's one thing  
You're sure you want to leave behind  
Let it not be there memory  
Of you and me

And if there's one thing  
You're sure about  
Let it be the time  
You spent with me.
