

Elan, This Time Around

Running over you
Running over me
Running everyone who's not like me
Now it's up to you
And it's up to me
'Cuase there's no time to fool around this time

This time around
I've turned so brown
This time around
I'm really on the ground
This time around
I've turned so brown
This time around
I'm really on the ground

So this one's for you
So get over me
I've got less things on my mind lately
And I'm not fit for you
And you're not fit for me
I know you've tried but haven't got it quite right

This time around
I've turned so brown
This time around
I'm really on the ground
This time around
I've turned so brown
This time around
I'm really on the ground

And here's to hoping
And here's to you
You look so peaceful inside you
And here's to hoping
And here's to you
You look so peaceful inside you

This time around
I've turned so brown
This time around
I'm really on the ground
This time around
I've turned so brown
This time around
I'm really on the ground
