

Elastica, A Love Like Ours

BBC Radio 1 Evening Session 06/08/96

Getting better, on your feet

Take a look, kept in deceit

A love like ours will never die

Break my bonds, break my back

Not a lot to [break] apart

A love like ours will never die

A love like ours will never die

Break my bonds and break my back

Not a lot to [break] apart

A love like ours will never die

A love like ours will never die

Getting better, on your knees

Three times blind, could not please

A love like ours will never die

A love like ours will never die

A love like ours will never die
