

# Elbow, Charge

I am electric  
With a bottle in me  
Got a bottle in me  
And glory be these fuckers are ignoring me  
I'm from another century  
I am a preacher  
When I've got it on me  
And I've got it on me  
And glory be these fuckers are ignoring me  
We never learn from history

Hey  
I am the beau who loved her so in every song  
And I designed that little mystery on your tongue  
I've broken jaws protecting laws to keep you free  
I made your day so take a seat by me

I am an old tree  
Gonna talk my jaw free  
Someone come and get me  
Another night beside myself would finish me  
Give us G & T and sympathy  
I am the diehard with an empty dance card propping up a young bar  
I'm pouring oil in double time upon the troubled rising tide inside of me  
Upon my history
