

# Eldritch, Sometimes in Winter

Now my eyes start to smile again  
You can't try, can't understand  
Love me in my world  
I know my god is cold  
Can't stand the heat, never had much fun

Here it comes my winter sun  
You can't see it bright  
In my own feelings he rises

My only winter, you keep my  
Desires alive  
My endless winter, confine me  
Inside your light  
In this garden of Eden I live again  
Reassured by hope from my fallings born  
Walking on my illusions I breathe the end  
How many flowers will die

Got a soul forever doomed to escape  
Wandering through a landless path  
Rain on my better self  
A rose will bloom from my ashes

My only winter, you keep my  
Desires alive  
My endless winter, confine me  
Inside your light

My only winter, you keep my  
Desires alive  
My endless winter, confine me  
Inside your light  
In this river my nightmares scatter and drown  
I fell free in this higher ground  
Swimming in my illusions, lost in the dark  
Where the sky shines black for my eyes
