

Eldritch, Soul Shrinkage

My angel is leaving me
I'm ready to fall
heat now is haunting me
to annihilate my soul
The flames are growing
just 'cause of you
the ground is burning
I'll burn for you

The story's not over
gonna exhale in air
the story's not over
gonna exhale in air

Remember one day you're gonna fall
your power is gonna fall
your power is torn

Sulphur invades the air
nothing is clear
injection of fear for me
please say a prayer

The flames are growing
just 'cause of you
the ground is burning
I'll burn for you

The story's not over
gonna exhale in air
the story's not over
gonna exhale in air

Remember one day you're gonna fall
your power is gonna fall
your power is torn
