

# Electrasy, Angel

Sometimes i cry, your what i left behind  
sometimes i see, you layin next to me  
I wanna get high, sometimes I don't know why  
I thought i was free, but all i can do is sit and dream, oh

You're my angel, made in England oh so well  
You miss me she said, and it's true  
There's no one else only you

i sit all alone, and wish oh that your not gone?  
so now i believe, that no one will ever set me free

You're my angel, you're made in England oh so well  
You miss me she said, and it's true  
There's no one else only you

You're my angel, you're made in England oh so well  
You miss me, she said, and it's true  
Please believe me oh I do  
You're my angel, you're made in England oh so well  
You miss me, she said, and it's true  
There's no one else you
