

Electrasy, Far Away

I went outside today
And I thought I must be crazy
Everyone I see
Are doing things that make no sense to me
Drowning in this world
Of shopping .coms, fast food pop songs

Tell me have you heard?
There's a better place where we're so far away
We're so far away, away
And I don't think coming back would be the same

I watched you all to day
But I wish I changed the channel
'Cos everything is the same
You're all living in a bubble
And what else can there be?
If you're stuck inside you'll never be free

Tell me now you've seen
Will you come with us where we're so far away
We're so far away, away
And I don't think coming back would be the same

When everything comes down
We're gonna be alright
We'll take you up with us...
And fly

Away, we're so far away,
Away, we're so far away,
Away, we're so far away,
Away
And I don't think coming back would be the same
And I don't think coming back would be the same
