

Electrasy, Morning Afterglow

Now is not the time to go
I feel the morning afterglow
and it feels oh very strange
It's very, very frightening
I realized what's happening
Could it be that I'd fall in love

Chorus:

She's the only one for me
She's got everything I need.
Turn my back and run away

She's the only one for me
She's got everything I need.
Turn my back and run away

Now is not the time to go
I feel the morning afterglow
and it feels oh very strange
It's very, very frightening
I realized what's happening
Could it be that I'd fall in love

(Repeat chorus)
