Electrelane, Enter Laughing

I saw a light And it shone Yeah it shone All around your head

My friend there's no time For all our plans Now you're gone There's no way back from here

Sometimes I just want to change But the people keep saying You can't give up your own ways

Can you tell me how I could be so blind to Ever let you go When I wanted you around?

You know I was just waiting for you to come over I thought that you knew it

I never told you that I, I've been looking out for you I've been thinking about you I could, I could, I could, I could, I could not tell you
