

# Electric 6, Be Afraid Of The Robot

You wanna go where the badgers go  
You wanna see what my love can be  
Now your begging on your knees  
Little child, Little sister

Dont be afriad of the robot  
Dont be afraid of the robot  
Dont be afraid of my love

You wanna go where the mighty hurt  
Feel my hand moving up your skirt  
Now your getting kinda high  
Little mama, little darling

Dont be afriad of the robot  
Dont be afraid of the robot  
Dont be afraid of my love

Turn those machines back on  
Turn those machines back on  
Turn those machines back on  
Turn those machines back on

Dont be afriad of the robot  
Dont be afraid of the robot  
Dont be afraid of my love
