

# Electric Callboy, MINDREADER

You're like a bittersweet harmony  
And there never really was a you and me You wrapped me 'round your finger  
Then hit my back with your deadly stinger

Save myself You'll be the death of me  
Save myself Stay away from me  
Save myself I want you out of my head so bad

And even if I wanna hide what I'm feeling for you  
You'd figure it out 'cause  
You're a mindreader

All the goddamn time you made me feel like shit  
The only thing you really cared about was your benefit  
I wanna get out while you're tryna get in sucka  
Everything you did is something I'll do better

Save yourself Oh I will beat you up  
Save yourself I know you'd never stop  
Save yourself I'm gonna make you regret so bad

And even if I wanna hide what I'm feeling for you  
You'd figure it out 'cause You're a mindreader Mindreader  
Save myself

You are the devil bitch  
Everybody knows that I wanna cut my thoughts out of your head  
You are the devil bitch  
Everybody knows that

When I'm done with you you'd rather be dead Dead so dead  
When I'm done with you you'd rather be dead  
Dead so dead When I'm done with you you'd rather be dead

And even if I wanna hide what I'm feeling for you  
You'd figure it out 'cause You're a mindreader  
Gotta move on but you hold me You're still in my head you control me'  
Cause you're a mindreader  
I wanna be right here without you just wanna forget what I've been through I need a mindreader M
