

Electric Light Orchestra, Don't Wanna

Don't want to talk, don't want to walk
Don't want to do anything
Don't want to kick, don't want to scream
Don't want to sleep, don't want to dream
Just want to sit, just want to stare
Do what you want I don't care
Wait for the phone, wait for the ring
Don't want to do anything

CHORUS

Don't want to work, don't want to play
Just sit around everyday
Don't want to dance, don't want to sing
Don't want to do anything
Don't want to laugh, don't want to cry
Just want to sit and wonder why
It's just too much without your touch
Don't want to do anything

CHORUS
