

# Electric Six, Pulling The Plug On The Party

Now there was a dancefloor  
At the hottest nightclub in town  
Politicians and celebrities  
Always going to get down, get down  
And they won't let me go in  
Because I got no status  
I went there with my friends  
And they just laughed at us  
One of these days I'm gonna burn the whole thing to the ground  
Pulling the plug on the party  
Pulling the plug on the party  
Pulling the plug on the party  
Pulling the plug on the party  
Now just because no one likes you  
Don't mean they don't want you around  
They wanna throw things at you  
And for an encore they push you down, push you down  
They sent a man to the moon just to watch him die  
We dropped turkeys out of planes just to fill up the sky  
And they know damn well they can't fly  
Pulling the plug on the party  
Pulling the plug on the party  
Pulling the plug on the party  
Pulling the plug on the party  
Baby now look at what you made me do  
Cos I only came here to party with you  
Baby now look at what you made me do  
Cos I only came here to party with you....  
With you....  
Now I C-A-N-T S-T-A-N-D I-T  
I can't stand it any more  
I'm tired of dancing on the floor  
And I've seen all of this before-  
I've seen all of this before-  
I've seen all of this before-  
I've seen all of this before-  
Baby now look at what you made me do  
Cos I only came here to party with you  
Baby now look at what you made me do  
Cos I only came here to party with you....  
With you....
